Sure thing, George. But I just want to clarify that Latosha isn't scheduled to come back to me until September 7 – so your message certainly raises the question of how long you anticipate this arrangement lasting?

Subject: Assistance with Colorado Mine Spill

Jennifer,

I'm writing to thank you for allowing Latosha Thomas to help us manage our communications and media needs during the response to the Gold King Mine spill. With her strong communications background, Latosha has been able to quickly get up to speed and offer valuable assistance in our time of need.
